London | SW1P 2PB

---

Tuesday | 7 September

Producer Stands ■ Regional Tables ■ Themed Tasting Tables  
■ WineGB Awards Trophy Winners' Tables

**WINEGB**  
WINES OF GREAT BRITAIN

# Welcome

## TO THE WINEGB TRADE & PRESS TASTING 2021

---

### ▶ WINEGB EXHIBITING PRODUCER STANDS

Our producer stands are located around the hall for you to visit. There will be a restricted number of exhibitors behind each stand in order to maintain safety measures. Exhibitors will pour all wines for you to minimise multiple handling of all bottles. Each exhibitor page is listed in alphabetical order in this booklet.

### ▶ FOCUS TABLES

We have a number of separate Focus Tables to shine a spotlight on selected styles this year.

As a safety precaution these tables will be manned by staff who will pour the wines.

### ▶ WINEGB AWARDS 2021 TROPHY WINNERS TABLES

The category trophy winners in this year's competition are on display for you to taste. Many of the producers will be on their own stands in the Hall too. Additionally we are also showing the top Winners in each region to taste. These winners are announced today. The wines are listed in their own section later in this booklet. A separate booklet about Awards is also available to pick up.

### ▶ WINEGB AWARDS 2021 - ANNOUNCEMENT OF TOP WINNERS AT 12.30PM

Our Awards Co-Chairs Susie Barrie MW and Oz Clarke will announce the Top Winners in our 2021 competition: Top Still, Top Sparkling and Supreme Champion along with Estate Winery and Contract Winery of the Year.

**We are taking every precaution to make this as safe an environment as possible for your visit today.**

**We are observing strict rules throughout and applying a range of measures for the safety and protection of all:**

- ▶ Please ensure you have checked in to the venue using the NHS app (located in the Foyer)
  - ▶ You will be temperature checked upon arrival
  - ▶ The wines will be served either by exhibitors from their tables or appointed staff on the focus table to avoid multiple handling of bottles
  - ▶ Please use your own spittoon which will be provided; you can dispose of its contents in the multiple bins provided and pick up fresh spittoons as and when required
  - ▶ Water is available on every stand - exhibitors and staff will be happy to pour some for you. Alternatively we have individual bottles available for your personal use
  - ▶ Please observe a safe distance between you and fellow visitors; if one exhibitor table is busy, feel free to visit another less busy stand and return.
- .....
- If you have any queries, please ask a WineGB representative - there are plenty available to help throughout the day!**

# Introducing

## SUSTAINABLE WINES OF GREAT BRITAIN

**Sustainable Wines of Great Britain, or SWGB for short, is a WineGB initiative which was formed in January 2019. Its aim is to ensure environmental sustainability is at the heart of the English and Welsh wine industry; sustainability is now one of WineGB's five strategic pillars.**

SWGB has three principal roles, which are:

- ▶ To promote sustainable practices to and share information with members of the British wine industry
- ▶ To create a strong, vibrant and inclusive community of like-minded wine producers and growers, made stronger through information sharing and research; and
- ▶ To provide a rigorous certification process which sets an industry standard in sustainability and encourages continuous improvement.

SWGB recognises the need for change to mitigate against climate change. Its ambition and commitment to a sustainable future has led to backing from leading industry suppliers and supporters, including Waitrose and Marks & Spencer.

What sets the scheme apart are two pioneering pieces of software – the WineGB Carbon Calculator and the SWGB Data Repository – as well as its emphasis on progression and a rigorous third-party auditing system. The unique Carbon Calculator tool enables vineyards and wineries to measure their carbon footprint (both emissions and sequestration) so that they can make more informed and sustainable decisions. The software creates reports to compare the environmental efficiency of different actions, such as using an electric vehicle, reducing bottle weight, or planting a woodland. SWGB members can therefore ensure sustainability is factored into all future winery and vineyard plans.

This month, SWGB will launch its ground-breaking Data Repository. For the first time, British wineries and vineyards will be able to compare their performance against an industry standard for sustainability. The online repository enables members to store and

present their data for audit, as well as measure progress against key performance indicators. Examples of best practice and areas for improvement will be easily and quickly identified.

Both features will expedite improvement and encourage industry-wide collaboration to achieve the collective goal of a more sustainable and self-sufficient wine industry.

Last year, SWGB announced its 30 founding members as well as the first wineries and vineyards to pass the audit and achieve certification. The scheme now has 61 members, which together account for a third of the area under vine in the UK. The first SWGB-certified wines were announced in August. Ten wines from four producers are now entitled to use the newly approved SWGB Trade Mark on their labels, with more expected in the coming months.

**To join SWGB and support the future of the British wine industry, please email Chris Foss, chair of SWGB, on [swgb@winegb.co.uk](mailto:swgb@winegb.co.uk) or Phoebe French, SWGB Scheme manager, on [phoebe@winegb.co.uk](mailto:phoebe@winegb.co.uk).**

## WHAT IT INVOLVES...

To gain certification, SWGB members must work towards the scheme's 11 vinegrowing and winemaking objectives by collecting data, evaluating performance and forward planning. These objectives include a commitment to reduce the sector's carbon footprint, water and non-renewable energy use, and improve soil health and biodiversity. This information will be stored in the SWGB Data Repository. Members' performance is verified by the scheme's independent auditors, Ricardo PLC, on joining, then every three years.

## KEY FACTS

- ▶ 61 members which together account for a third of the area planted in the UK
- ▶ Of these, 23 vineyards and eight wineries have achieved SWGB certification, double the number recorded last year.
- ▶ Eight members are fully certified: both their vineyard and winery are accredited

## SWGB MEMBERS:

a'Beckett's Vineyard	Enborne Vineyards	Plumpton College
<b>v</b> Albury Vineyard	<b>v</b> Exton Park Vineyard (v)	<b>v</b> Preston Wine Partnership
Artelium Wine Estate	<b>v</b> Grange Estate Wines	Raimes English Sparkling

E.W. Davies Farms	Owlvale Limited	
<b>v</b> Easing Hill Vineyard	<b>v</b> Pinglestone Estate	

**v = accreditation for vineyard**

**w = accreditation for winery**

# Great British Classic Method

**We are now confidently and proactively establishing Classic Method as our term for the authentic expression of sparkling wine from Great Britain. Classic method means secondary fermentation in bottle with a minimum of 9 months on lees. Production by this method takes time and deep craft to make something highly distinctive and conveys the greatest expression of our unique, nervy, cool-climate terroir.**

We have long recognised the need to positively differentiate and protect this our flagship category from those sparkling wines made by other processes. This is the hero style that has put Great Britain on the wine map and we are on the path to ensure that they are recognized among the finest wines of the world.

Classic method sparkling wines are at the forefront of our ever-growing industry, representing two thirds of production and sales by volume on the domestic market. They lead the way in our growing export markets across the globe, with USA, Scandinavia and Japan at the forefront. Our success through these wines has led us to more extraordinarily exciting developments in our industry.

In time, we anticipate that the method of production will be included on all sparkling wine labels - our term 'Classic Method' will be the definition we use for our hero style.

## THE GREAT BRITISH CLASSIC HALLMARK

The Classic Method Hallmark is a visual cue to define English and Welsh PDO wines made using the time and craft-intensive classic method. In order to qualify for the Hallmark the wines must pass a qualitative taste test. The Hallmark is now being used by a number of producers – on back labels, neck labels, marketing materials and websites – to signify that the wine has been produced to these standards. In time, those wines that have also achieved accreditation through the Sustainable Wines of Great Britain scheme will be entitled to use the Hallmark that incorporates the SWGB 'butterfly'.

## *The Knight Who Invented Champagne*

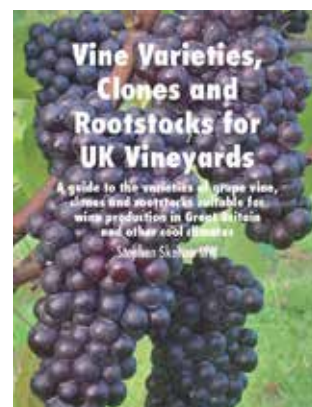

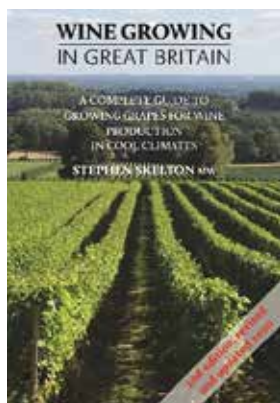

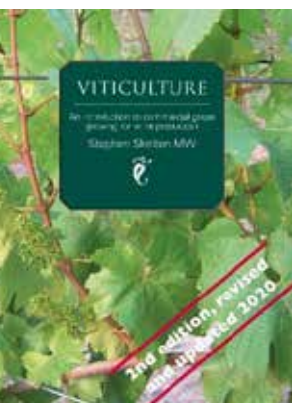

This is the story of how developments in the British glass industry in the early part of the 17<sup>th</sup> century led to the production, by Sir Kenelm Digby, of strong glass bottles, the so-called *verre Anglais*. These ‘shaft and globe’ bottles, strong enough to contain the pressure of a second fermentation, led to the production of bottle-fermented sparkling wines and ciders.

*“This is an absolutely fascinating book, written in a way that is part whodunnit, part Shakespearean play, part Hilary Mantel historical fiction, part history book, part Skelton the (dry but precise) academic .... I cannot recommend this book highly enough.” Jancis Robinson Purple Pages website.*

A full colour, limited edition of *The Knight Who Invented Champagne* is available for sale at £25 each. This price is for single copies including postage and packing to any UK address. Please contact the author at [mail@stephenskelton.com](mailto:mail@stephenskelton.com)
